MARY MEDITATION

Miracles

Your dictionaries define miracles as extraordinary events manifesting a supernatural power of God. My children, miracles are truly created by men and women in harmony with God, according to natural law. Yes, there are times when the Creator steps in to dispense a miracle or two, but the event is still according to the natural laws of this world and the miracle has always been requested. Far more frequently the everyday miracles of life, those events both large and small that precipitate change, are the result of the creativity and harmony of the human mind working in concert with intention and the natural laws. The more harmonious you are with God, the more faith you have in the process of creation, the more miracles you will manifest in your life. You are all, my dear ones, miracle makers. As you grow and progress along your personal path, as you manifest greater and greater alignment with your own divinity, things that once seemed miraculous become more commonplace. Remember to be grateful, for though common in your life, they are still miracles of harmonious creation, and they raise the bar for subsequent miracles. Just as each goal you attain gives you the impetus to set loftier goals, so does each miracle set the stage for greater ones to come. Be open and receptive to miracles, my children, for they are within you. As your faith in your personal connection to the Divine grows, so does your ability to create miracles. Accept it and use it, for truly the greatest miracle is within you.

BLESSINGS AND LIGHT,

Christina

FIELD TRIPS

As a group, those who attend the Gatherings on Tuesday nights took a Field Trip to do Inter-Dimensional Photography recently. The results were wonderful, as everyone with a camera was able to document I-D energy on film! If you would like to join us for future Field Trips, please send me an email with a subject line of "Field Trips" and we will notify you when they are coming up. Some are spur of the moment. If you have a
